

## Group leader position in plant sciences

Position: We are seeking a highly motivated **young investigator** who will develop her/his own independent research and establish her/his own research team in the BioCentre, a newly established integrative research and teaching facility for biological sciences at the University of Cologne.

Requirements: The preferred candidate has a strong publication record with a focus on plant lipid signaling and expertise in lipid analytics and mass spectrometry. Willingness to submit a grant application (e.g. Emmy Noether Programme, ERC Starting Grant) is a strong plus. The position will be endowed with excellent research infrastructure.

Starting date: The position is available immediately.

Duration: 5 years +.

Salary: according to national and DFG guidelines (TV-L E13).

Application: Applications should include a *curriculum vitae*, list of publications and the names and telephone numbers of three references. A research plan outlining complementarity of the planned research to the research program in the Bucher lab is desired.

Deadline for application: Applications will be accepted until the position is filled.

Inquiries and address of application: Prof. Dr. Marcel Bucher
