

The International Graduate School “Response of Plants to a Changing Environment” of the Heinrich-Heine-University Düsseldorf (iGrad-Plant, a joint program with Forschungszentrum Jülich and the Genetics program of Michigan State University, East Lansing, USA) is looking for a

Postdoctoral Researcher in Plant Science
(100%, EG 13 TV-L)

The position is offered for a period of 1.5 years, starting at 01.04.2012.

We are looking for a person with a strong track record in studying the interaction of plants with abiotic and biotic environmental factors. The postdoc will have the opportunity to develop his/her own independent research project within the framework of the iGrad-Plant projects. The various groups within iGrad-Plant provide ample opportunity for collaborations, and we expect the postdoc to actively pursue these.

The successful candidate will join an enthusiastic, collaborative and international team in an excellent scientific environment. The iGrad-Plant graduate school is funded by the Deutsche Forschungsgesellschaft (DFG). For more information on the program see: <http://www.igrad-plant.uni-duesseldorf.de>

The Heinrich-Heine University advocates gender equality. Women are therefore strongly encouraged to apply. Equally qualified severely handicapped applicants will be given preference.

Please send your complete application (including a cover letter describing your scientific accomplishments, interests and reasons for applying, your CV and bibliography, contact info for 3 references, all in a single pdf-file) within two weeks to Dr. Sigrun Wegener-Feldbrügge, wegenerf@hhu.de (Institute for Plant Biochemistry, 40225 Düsseldorf, Germany).

Electronic submission of applications via e-mail is preferred. Applications submitted by conventional mail will not be returned.
