

GEORG-AUGUST-UNIVERSITÄT
GÖTTINGEN

The Department of Albrecht-von-Haller-Institute for Plant Sciences, University of Goettingen
offers a

PhD position

This position should be filled as soon as possible and is offered for 3 years.

Salary: Pay grade 13 TV-L (50 %).

For three years, starting presumably in May 2017. The applicant will work on the project: "Protein turnover at the oil bodies of plants".

The PhD position is available in the research group of Dr. Till Ischebeck at the Department of Plant Biochemistry of Prof. I. Feussner at the Georg-August-University Goettingen, Germany. The Ischebeck laboratory applies a combination of cell biological, biochemical and genetic studies to investigate the turnover of proteins and lipids at the oil bodies of seeds and pollen tubes.

Applicants require a master or diploma in Biology, Biochemistry or related fields and should be highly motivated to work in plant sciences. Experience in cell biology, biochemistry, molecular biology and plant genetics are desirable. The project will benefit from an excellent scientific environment, state of the art equipment and the graduate program of the GGNB (Goettingen Graduate School for Neurosciences, Biophysics, and Molecular Biosciences).

Please send your application with the usual documents (in electronic form preferably in a single PDF-file) by e-mail to Till Ischebeck (tischeb@uni-goettingen.de). Application deadline is 14.03.2017. Students in the final stages of completing their Master thesis are also encouraged to submit an application.

For further questions regarding the scientific content of the project, please contact Dr. Till Ischebeck (e-mail: tischeb@uni-goettingen.de).

The University of Goettingen is an equal opportunities employer and places particular emphasis on fostering career opportunities for women. Qualified women are therefore strongly encouraged to apply in fields in which they are underrepresented. The university has committed itself to being a family-friendly institution and supports their employees in balancing work and family life. The mission of the University is to employ a greater number of severely disabled persons.
