

Eduard Strasburger Hot Topic Workshop Cryo-Electron Tomography

DFG FOR 5573 – GoPMF and Deutsche Botanische Gesellschaft (DBG) present:

Registration is open now until 28th February 2026!

From **13–15 April 2026**, the DFG Research Group GoPMF and the German Society for Plant Sciences (DBG) will host a workshop on cryo-electron tomography (cryo-ET) in **Prof. Dr. Ben Engel's group at the Biozentrum, Basel, Switzerland**.

Participants will have the opportunity to learn the main steps of sample preparation prior to cryo-electron tomography data acquisition, as well as parts of the data-processing pipeline and visualization tools. There will also be time for networking with other early-career researchers and invited experts in the field.

Thanks to funding from the DBG and the German Research Foundation (DFG), the workshop is **free of charge** for all participants and includes food and drinks throughout the event. **Travel to and accommodation in Basel are at the participants' own expense.**

If you are interested in attending, please email karen.zinzius@uni-muenster.de, stating your **name, affiliation, position, and motivation** (no more than five sentences). Participation is limited to **20 participants**, and selection will be based on the information provided. Successful applicants will be notified at the beginning of March and will receive the final program and further relevant information.

We look forward to seeing you in Basel.
